

Fixed penalty notices issued under COVID-19 emergency health regulations by police forces in England and Wales

Introduction

This release presents the latest data on the police use of COVID-19 enforcement notices issued under all emergency health protection regulations in force as at 14th February 2021¹ (including fines issued under local “lockdowns”, that is local areas where restrictions have been temporarily tightened and includes revisions to previously published figures).

Data on FPNs issued in England and Wales is collated centrally by the ACRO Criminal Records Office and cover the 43 territorial forces, the British Transport Police (BTP) and Ministry of Defence Police.

The figures below relate to enforcement activity by police forces and these data should be seen in the context of wider police activity to engage with the public to explain and encourage compliance with the new regulations. As outlined in previous releases, the police have recorded hundreds of thousands of Covid-19 related incidents since the 27th March 2020. This will include incidents where officers have proactively offered advice to people, responded to reports from the members of the public about breaches of the regulation by others and offences where criminals have sought to take advantage of the pandemic to commit a crime.

Headline figures for FPNs issued under the Health Protection (Coronavirus, Restrictions) Regulations, England and Wales

In total, 68,952² notices have been recorded as having been issued in England (63,201) and Wales (5,751) between Friday 27th March 2020 and Monday 14th February 2021.

In England:

- 15,947 notices were issued under number one regulations;
- 571 under number two regulations;
- 272 for holding a gathering of more than 30 people;
- 1,105 in relation to breaches of local “lockdowns”;
- 2,895 under the “Local COVID-19 alert levels”;
- 7,006 under number four regulations (national restrictions) and
- 35,405 notices issued under the “All Tiers” regulations:
 - 19 notices for Tier 1 (Medium);
 - 1,009 notices for Tier 2 (High);
 - 3,469 notices for Tier 3 (Very High);
 - 3,391 notices for Tier 4 (Extremely High); and,
- 27,517 were issued from 6th January 2021, when national restrictions came into force.

In Wales:

¹ For a full list of all regulations please see: <https://www.legislation.gov.uk/coronavirus> and <https://gov.wales/coronavirus-legislation-and-guidance-law>

² Three notices are recorded as having been issued in England prior to March 27th

- 2,664 notices were issued under number one regulations;
- 175 notices were issued under number two regulations;
- 284 notices were issued under number three regulations;
- 608 notices were issued under number four regulations;
- 2,014 notices have been issued under number five regulations;
- 3 notices were issued under regulations relating to holding a gathering of more than 30 people; and,
- 3 notices were issued under the ITR.

Chart 1 shows previously published figures for earlier reporting periods together with the latest revisions as more FPNs have been processed. In earlier releases this was reported on a daily basis but, given the length of time these regulations have been in place, this is now summarised on a weekly basis. The following analysis and the chart below do not include fines issued under the face covering regulations, business regulations or ITR. Separate analysis is presented in the sections below for these FPN types.

There were steep rises in FPN issuance following the week of 18th-24th December 2020, coinciding with the introduction of Tier 4 as part of the “Local COVID-19 Alert Levels” regulations and continued to rise with the introduction of the new national restrictions on the 4th of January 2021 (when all areas of England were moved into Tier 4). This reflected more proactive policing of the regulations in the context of the danger to public health and represented a shift to move more quickly to enforcement where there were clear breaches of the law.

While the latest full week for England and Wales shows that there has been a decrease in the number of FPNs issued (4,752 FPNs issued between 5th to 11th February 2021), compared with 6,218 FPNs in the previous week, this figure is likely to be revised upwards as more fines are processed.

Enforcement levels during January and early February had returned to levels seen in the first period of restrictions in March and April 2020, with a peak of 3,294 FPNs issued between 10th – 16th April 2020 during the week of the Easter Bank holiday. After this initial high level of enforcement, there was a considerable reduction in enforcement activity as the restrictions were progressively eased, particularly in England. This low number of FPNs continued from June to early September, after which there was a gradual increase as restrictions were tightened. This was then followed by a dip in the number of FPNs issued between late November to mid-December 2020 as restrictions were relaxed after the end of the second national restrictions. The number of FPNs began to rise again following the tightening of national restrictions on the 6th January 2021.

Of all enforcement notices issued in England and Wales:

- The vast majority (13,995) have been issued for “Contravene requirement as to restriction of movement during emergency period” (Table 1).
- The large majority (over 7 in 10) were issued to males (Table 2).
- Over 7 in 10 were issued to the under 35s; with 45% issued to 18-24 year olds, 17% to those aged 25-29 and 12% to those aged 30-34 (Table 3).

- Of those FPNs where the individual issued with the notice had a self-identified ethnicity³ recorded, 76% were issued to people who self-identified as White. 12% went to those who self-identified as Asians and 7% to those identifying as Black (Table 4).

³ 21% of FPNs issued did not have the self-defined ethnicity of the individual identified.

Headline figures for FPNs issued under the face coverings regulations, England and Wales

A total of 456 notices have been recorded as having been issued by police forces under the Wearing of Face Coverings on Public Transport Regulations between 15th June 2020 and 14th February 2021, and 1,888 notices have been issued under the Wearing of Face Coverings in a Relevant Place Regulations between 24th July 2020 and 14th February 2021.

Face coverings on public transport

A weekly count of FPNs issued under face coverings on public transport regulations has shown that an average of thirteen FPNs have been issued each week (with 456 notices issued to 14th February 2021 since 15th June 2020). There is no discernible trend apparent from the data.

Further breakdowns of FPNs issued under the Face coverings on public transport regulations are presented below.

- The vast majority of FPNs issued under this regulation type were issued to males (around 8 in 10).
- Over half (55%) were issued to individuals aged between 18 and 29.
- Of the 337 records where ethnicity was provided, the majority (62%) were issued to individuals who self-identified as White, a lower proportion than other FPNs. This may reflect public transport being more prevalent in metropolitan areas.
- As might be expected, the BTP issued most of such FPNs to date (182 out of 456) for individuals not complying with the transport regulations.

- Most FPNs issued under these regulations were for contravening the requirement to wear a face covering when on public transport (422 – Table 5).

Face coverings in a relevant place

Between 24th July 2020 and 14th February 2021, 1,888 FPNs were issued under face coverings in a relevant place regulations. Very few FPNs were issued in the first couple of months that the regulations were in place. However, at the start of October the number of FPNs increased with 78 FPNs issued between 2nd and 8th October 2020. The number of FPNs issued each week then remained around this level before declining in late November. The number of FPNs remained relatively stable, before an increase to 100 in the last full week of 8th – 14th January 2021. The FPNs continued to increase to over 200 in the last full week of 5th – 11th February.

Further breakdowns of FPNs issued under the Face coverings in a relevant place regulations are presented below.

- The majority of FPNs issued under this regulation type were issued to males (around 8 in 10).
- Less than half (43%) were issued to individuals aged between 18 and 29.
- Of the 1,575 records where ethnicity was provided, the majority (64%) were issued to individuals who self-identified as White.
- Merseyside issued the most FPNs of any force to date (261 out of 1,888) for individuals not complying with the rules regarding face coverings in a relevant place. West Mercia issued the second highest number of FPNs (253 out of 1,888).

Understanding the data

These data cover the number of FPNs issued under COVID-19 regulations which came into effect from 27th March 2020.

Data presented in this release represent the number of FPNs issued. While the vast majority of FPNs relate to a single individual, some people have been issued with an FPN more than once. An FPN can be issued for more than one reason.

Figures on the number of FPNs issued should not be seen as a measure of the amount of police activity involved in policing the new measures, or the level of public non-compliance, since fines are issued as a last resort after initial attempts to engage with the public to explain and encourage compliance with the new regulations have not been successful.

Owing to the time taken to process FPNs, figures presented here are likely to underestimate the volume of FPNs issued each day and will be updated with each release as new data are received, although the rate of increase in revised data has slowed significantly.

The nature of the administrative process involved in issuing an FPN is such that there is sometimes missing data or discrepancies when data are returned. For example, as ethnicity is self-defining this is not always completed, and the level of missing data needs to be considered when interpreting such figures.

Force level figures are presented for England in Annex A and Wales in Annex B. However, caution should be taken to make comparisons between forces as variation in is likely to reflect a range of factors including how the force has decided to police non-compliance as well as differences in local context (e.g. composition and density of the local population).
